PROFESSIONAL SUMMARY

Computer Science Engineering graduate restarting my software engineering career through focused self-study and practical development. Currently learning React and TypeScript, with introductory experience writing backend APIs, testing API requests using Postman, and writing basic SQL queries. Interested in developing reliable web applications, strengthening software engineering fundamentals, and pursuing a career in Japan.

EDUCATION

Bachelor of Technology in Computer Science

NRI Institute of Technology — CGPA: 7.35

TECHNICAL SKILLS

Programming	Java, JavaScript, Typescript, Python, C, C++
Frontend	React and TypeScript — currently learning; HTML, CSS and JavaScript
Backend	Spring Boot and backend API development — introductory experience
Database	SQL — basic query writing;
Tools & Platforms	Git, GitHub, VS Code, Postman
Cloud & Others	Familiar with cloud computing concepts and platforms like AWS

PROJECTS

Portfolio Website — Personal developer portfolio showcasing projects, skills, and learning journey.

GitHub Projects — Continuous hands-on project building and experimentation with modern technologies.

CORE STRENGTHS

- Strong self-learning ability
- Adaptability
- Passion for technology
- Collaboration & communication
- Curiosity for modern technologies and scalable systems

LANGUAGES

- English — Fluent
- Telugu — Native
- Japanese — Currently Learning
- Hindi — Conversational

CAREER OBJECTIVE

Seeking opportunities to strengthen my practical engineering skills through hands-on development, professional mentorship, constructive feedback, and collaboration with experienced software engineers.
